**About TICAP**

We are regional, national, and international organisations, now bound in solidarity against the damaging prohibitions which in most cases serve to enrich special interests through scientific fraud and political manipulation, where adults are treated as children and freedom of choice is brushed aside

# PROHIBITION

## Science: Economics: Social Impact

**1st WORLD CONFERENCE AGAINST PROHIBITION:  
"SMOKING BANS AND LIES"  
Brussels, 27/28 January, 2009  
European Parliament, ASP A1E-2  
Under the patronage of Godfrey Bloom MEP**

**Conference Topics:**

- Impact of Smoking Bans
- Epidemiology and passive smoking fraud
- Toxicology and ventilation
- Public health ideology and the pharmaceutical industry
- Political fight against tobacco prohibition

**Conference Aims:**

Development of methods and strategies to achieve:

- Reduction of job losses and economic damage to industry and trade
- Legislative solutions that respect people's lifestyle
- Promotion of active and effective political participation of business and consumers, in political decisions that affect them
- Ending the use of pseudo-science to establish and justify policies, political actions and laws
- Curtailing the influence of pharmaceutical and other commercial lobbies on political decision-making
- Reestablishment of the fundamental principle that the body belongs solely to the individual and not the state, and that longevity of life should not compromise quality of life

**By attending to this Conference YOU can make the difference!**

Simultaneous translations into French, Dutch and English will be available at the Conference.

There will be no charge for attendance.

Participants are responsible for their own travel and accommodation.

Attached please find the conference schedule and the speakers' list.
